

# Grounded

Soul Asylum

When aid turned sideways  
And It'd head on down the highway  
Say this is my way, disappearing forever

But there ain't just one way  
So you choose the fun way  
Slide down the runway  
On a ticket that goes two ways

And by the way that it sounded  
You thought that you'd be astounded  
But you left it like you found it  
Cause it wasn't yours to take

What once seemed like dying  
Soon turned into flying  
So you settle for trying  
And you wish you were grounded

No you cannot get much higher  
Than your utmost desire  
So you bring it down to size and  
Now it seems that you are grounded

By the way that it sounded  
You thought that you'd be astounded  
But you left it like you found it  
Now you find that you are grounded
