

# Growing Into You

Soul Asylum

You never grow out of mischief making  
You never grow out of taking  
You never grow out of complicating  
When simple things are waiting

But I'm growing into you  
I'm growing into you

There's one thing that I know that's perfectly clear  
You never grow out of fear  
You never grow out of fear

You never grow out of contemplating  
When it ain't worth debating  
You never grow out of mistake making  
You never grow out of faking

But I'm growing into you  
I'm growing into you

There's one thing that I know that's perfectly clear  
You never grow out of fear  
You never grow out of fear

I'm growing into you  
I'm growing into you

There's one thing that I know that's perfectly clear  
You never grow out of fear  
You never grow out of fear  
You never grow out of fear  
You never grow out of fear  
You never grow out of fear

And will I ever, ever, ever get over it?  
Get over it, get over it, get over it
