

# Happy

Soul Asylum

When I'm with my friends, my troubles end  
I'm one of the boys, so self employed  
When we're together, could last forever  
And I'm almost there  
And I'm almost there

I'm away from the boss, at least for awhile  
I'm away from the girls that cramp my style

I'm away from the jerks, I'm away from the works  
And I'm almost there, I'm almost there

Happy time, happy time  
Happy time, happy time, happy time  
Got a happy head, so happy, happy time  
I wish I could be this happy all the time

I'll take four of those, and couple of those  
And more of those, and more of those

I'm away from the jerks, I'm away from the works  
And I'm almost there, I'm almost there

Happy time, happy, happy time  
Happy time, happy time, happy time

Everybody's so happy

I ain't gonna wait around

And I'm almost there, I'm almost there

Happy time, happy, happy time  
Happy time, happy time, happy time

I'm so happy

Ah, ah, ah (4x)
