

# Oxygen

Soul Asylum

Wishing upon a mattress  
Falling off the axis  
Slipping the stillness  
Flipping the bird

I'll walk you home when you're wasted  
I can almost taste it  
All this oxygen's for you

But it's a couple more volts of shock treatment for you  
When a couple more votes of confidence will do  
I'll walk you home when you're wasted  
I can almost taste it

But it's a couple more volts of shock treatment for you  
When a couple more votes of confidence will do

Always there to remind you  
Before and behind you  
It follows you everywhere you go

They may say you're crazy  
But it don't even faze me  
Cause you're the sanest one I know

Just a couple more breaths of oxygen will do  
They may say you're crazy  
Makes you so amazing

But it's a couple more volts of shock treatment for you  
(Couple more votes of shock treatment for you)  
A couple more votes of confidence will do  
(A little bit less loneliness will do)

Just a couple more breaths of oxygen will do  
But its a couple more bills and a couple more pills  
And a couple more "Why do you do those things you do?"

(Shock treatment for you)  
Just a couple more volts of shock treatment for you  
(Shock treatment for you)  
Just a couple more breaths of oxygen will do  
(Shock treatment for you)  
Treatment treatment for you  
Shock treatment for you

That'll do (5x)
