

Call me at the office  
Call me sad but true  
It calls me when you call me  
It keeps me in my room

Supersonic just how you want it  
Catatonic she's always on it  
Supersonic she's always on the way

Automatic autumn  
Left it sound insane  
We are moving onward  
Wasting away

Supersonic just how you want it  
Catatonic she's always on the way  
Supersonic she's always on the way

Walk through the gates  
As they watch you arrive  
Then you become someone in and out of line

So meet me at the station  
Let's pretend to go somewhere

Supersonic I'm always on it  
Catatonic just how you want it  
It's so ironic  
I'm always on the way

Supersonic just how you want it  
Catatonic electron electronic  
You promised I'm always on the way
