

## Free Jazz

## Soul Coughing

Normalize the signal and you're banging on freon  
Paleolithic eon  
Put the fake goatee on  
And it booms as cool as  
Sugar free jazz

Schools he bombs, he bombs

Stack wax lie like a placemat  
Won't lap  
Or help you at the automat  
And it's clear and clean as  
Sugar free jazz

Schools he bombs, he bombs

Fossilize apostle and I comb it with a rake  
You can't escape  
You pull out the brake  
And it booms as cool as  
Sugar free jazz
