

Daemon to Daemon

Souldrainer

Like a knife cuts through you.
With open eyes. Eye, behold the light.

I feel whole and complete, this dream untrue.
As your soul drifts away I feel pain.
I fuck my sins, I await my death.
The clouds uncovered the moon, it danced over the trees.
As I covered in blood, I prayed to my God.

Daemon II Daemon.

I feast on your guts you fucking whore!

Like a knife slit your veins.
With well-shut eyes. Eye, behold the dark.

I enter thee...
