

## Remember Me

Souldrainer

I am not there, I do not sleep  
You stand at my grave and weep  
Why cry for a soul set free  
You won't be alone, and you will know  
I am the wind that through your mind will blow  
But life goes on and on again

Weep, I have finished my final chapter  
The stars are set, I'm ready to go  
Remember me and I will live forever  
And you alone, will have the key to me endeavors

I will live in your mind  
for as long as you remember me  
Please keep me in your mind  
This is a journey that we all must take  
Remember me when you're awake  
Dream of me but I won't come back

I never said bye  
I was with you for just a little while  
I never knew it was time for me  
Don't waste your time at my grave and cry  
I am no there, I didn't die  
Think of me and you'll keep me alive

Weep, I have finished my final chapter  
The stars are set, I'm ready to go  
Remember me and I will live forever  
And you alone, will have the key to me endeavors

Close your eyes and remember me  
take my hand and again we are we
