

Pressure building on my soul  
I ask God to take control  
Guide me through this fucked up world

Conquer this fear spiritually  
Forever let it be  
Into infinity

Against all odds we carry on  
Like we always did before  
Soulmate forever more

I feel your presence every day  
It's so real in every way  
Give God thanks and praise!

Just let my soul fly free  
And let me be the one God wants me to be  
Just let my soul fly free  
And let me see everything I'm  
supposed to see

Just let my soul fly  
Just let my soul fly  
Just let my soul fly free!!!

Pressure building on my soul  
I ask God to take control  
Give me guidance in this world

Conquer this fear spiritually  
Forever let it be  
Into infinity
