

## In the Meantime

Soulfly

Earth tone suits you  
So get up and smile  
If I could hold your feet down  
Get to know for awhile

To make a due is a promise  
Hard to keep without help  
Never taught to look in  
I'm too concerned with my health

Help me spread right ash is  
Cow fertilized  
Come down in a feed town  
Strength to minimize  
Hold it in the meantime, in the meantime

In the meantime, in the meantime  
In the meantime, in the meantime
