

# Intervention

Soulfly

Fight back  
Attack  
Let them all know that we're back  
Collapse  
Attract  
And feel the knife at your back

Intervention - Violation  
Desecration - Intervention

War act  
A fact  
The government will crash  
It's now  
It's dead  
Nobody can bring them back

Intervention - Violation  
Desecration - Intervention

Pain - Never go away  
Hate - Remains the same  
They - They will know my name  
Slay - The government decay

Reality - The fall of morality  
Inner cities corrupted by greed  
A Roman Empire falls to their knees  
Intervention the only reality

Pain - Never go away  
Hate - Remains the same  
They - They will know my name  
Slay - The government decay

Now war  
Will fall  
The sky will bleed the new storm  
Act now  
For all  
Enter your downfall

Intervention - Violation  
Desecration - Intervention

Bloodstorm...  
Onslaught...  
Torture...  
Martyr...
