## **Lethal Injection**

Die, your fate is sealed by lethal injection Tried by a jury of false perception Lied to, they bribe you Submit to the wrong correction Your final dose is a lethal injection

Your time has come, it's time to die Your soul is heavy, your heart is dry Inner fear takes control Say goodbye to this world

Die, your fate is sealed by lethal injection Tried by a jury of false perception Lied to, they bribe you Submit to the wrong correction Your final dose is a lethal injection

Judgment falls from the sky Lethal injection, you die tonight The bleeding starts, your life passes by Darkness falls, the end of life

Die, your fate is sealed by lethal injection Tried by a jury of false perception Lied to, they bribe you Submit to the wrong correction Your final dose is a lethal injection

Die, your fate is sealed by lethal injection Tried by a jury of false perception Lied to, they bribe you
