

# Rough

Soulfly

Doomsday calling  
Karmas burning  
Seeing black  
Chaos forming  
Vulture culture  
Total rapture  
Killing kingdom  
Now has come

Make it rough, fucking rough  
It's how you land  
Not how you fall... (2x)

Incendiary...  
Mercenary...  
Seeing red, you turn to ashes  
Eclipse comes, blot out the sun  
You crash and burn  
You trash and burn

Make it rough, fucking rough  
It's how you land  
Not how you fall... (2x)

Hostility...  
Brutality...  
I'll blind the world - reality

Against the world we're coming rough  
The king of kings designed me though

The riots, the bombs  
The city is a tomb  
corrosion, corruption  
Unleash destruction  
Critical time, critical mass  
Make it rough, killing fast  
Make it rough, fucking rough  
It's how you land  
Not how you fall... (4x)
