

Girl, I want you bad  
What you expect me to feel?  
Best love I ever had  
The kind that helps me to heal  
Girl, don't make me mad  
Thinking this love isn't real

I know how you feel so good  
If you had your way  
You'd be with me every single day  
Girl, you'll never want to let me go

Girl, I want you bad  
And I want you right now  
I know you feel so sad  
Thinking you lost me somehow  
I'll make you so glad  
The most that love will allow

I know how you feel so good  
If you had your way  
You'd be with me every single day  
Girl, you'll never want to let me go

Girl, I want you bad  
What you expect me to feel?  
Best love I ever had  
The kind that helps me to heal  
Girl, don't make me mad  
Thinking this love isn't real

I know how you feel so good  
If you had your way  
You'd be with me every single day  
Girl, you'll never want to let me go

I know how you feel so good  
If you had your way  
You'd be with me every single day  
Girl, you'll never want to let me go
