

Pharaoh's Chariot

Soulsavers

To thank you jealous heart I ...put you in the ground
The driver rides the rain The trumpeter he sounds
As blood is to the root, is ...silver to the crown
Take it as you may My love has gone away

Then it all comes to nothing, ...then it all comes to nothing

To break you jealous heart I build to tear it down
The timber from the walls The make up from the clown
And dirt is to the grave as water to the drowned
So long to my slave My wheel's beneath the waves

Then it all comes to nothing, ...the it all comes to nothing
