

Ain't That Simple

Soulsister

Think I'll take a walk
And maybe it'll clear my mind
Lord I'm so confused maybe
I'll just stay here in bed

'Cause I like whet you invite
Your friends around
And I like it when we spend
The night on the town
Caught in a crowd
I don't know why but I can't decide
I just want to treat you right

But it ain't that simple
Every choice is is hard to make
Baby ain't that simple
Hey hey hey
Since everything is comin' our way

Funny things start happenin'
Honey when I see your face
A chemical reaction hits me
And I can't think straight

And I don't care if you
Want weekend at home
And I don't care if you
Feel like staying at home
I'm even happy when we
Talk on the phone
I don't know why but I can't decide
I just want to treat you right

But it ain't that simple
Every choice is is hard to make
Baby ain't that simple
Hey hey hey
Since everything is comin' our way

'Cause I love you
Girl I need you

And I don't care if you
Feel like hangin' around
I don't care if you
Want a night on the town
And lately I don't know
What's up from what's down
I don't know why but I can't decide
I just want to treat you right

But it ain't that simple
Every choice is is hard to make
Baby ain't that simple
Hey hey hey
Since everything is comin' our way
