

I've got a crush on you baby
You're turning me on
Feel like a frosh to you baby
It carries me on on on

You blow my fuse when you're
crossing my doorstep
I'm on the lose every time that
you look my way
I've got a crush on you baby
Make my day

I've got a crush on you baby
It's hard to believe
No time to blush pretty baby
Just let me be your slave

And when you stay I'll surely draw the blinds
A sweeter love would be hard to find
I've got a crush on you baby
Make my day

Once in his life
a gambling man should win
the everlasting game of love
A woman for all time
the finest lady of the deck
She's the queen of hearts

I've got a crush crush
I've got a crush on you baby
I've got a crush crush
I've got a crush on you baby

I've got a crush on you baby
You're giving me the chills
No need to rush pretty baby
Just cure my ills

And when you stay I'll surely draw the blinds
A sweeter love would be hard to find
I've got a crush on you baby
Make my day

Once in his life
a gambling man should win
the everlasting game of love
A woman for all time
the finest lady of the deck
She's the queen of hearts

I've got a crush crush
I've got a crush on you baby
I've got a crush crush
I've got a crush on you baby
