

Get It Together

Soulsister

Everybody's having a hard time
Short of money
Spending all night
trying to think of ways to get by
Lord knows it ain't easy

Tell me mama
where's your boy gone?
Does he wear the colours
is he out there
putting down his brother
thinking that's what makes a man

O o o
We've gotta get it together
O o o
Let the bad wind blow by
O o o
We've gotta get it together
the way we're living now
we might as well wear blindfolds

Let the morning
bring some good news
I'm tired of watching empty faces
trying to sell their explanations
for what went wrong today

O o o
We've gotta get it together
O o o
Let the bad wind blow by
O o o
We've gotta get it together

Safe, safe by my side
You're my spoilt little girl
Safe, safe by my side
in our private little world

O o o
We've gotta get it together
O o o
Let the bad wind blow by
O o o
We've gotta get it together
the way we're living now
we might as well wear blindfolds
