

# I Need Some Time

Soulsister

There's a chill in my heart  
Long as I can remember  
I've been stopped by the guard  
Trying to think of the password  
is it love?

There's a wind in my brain  
and it blows in all directions  
Like a bird in the rain  
I am looking for shelter  
is it love?

But I need some time  
Yes I need some time  
Any day now any day now  
The clouds will all be gone  
But I need some time

There's a chill in my heart  
Long as I can remember  
I've been walking apart  
Trying to make some connection  
is it love?

But I need some time  
Yes I need some time  
Any day now any day now  
The clouds will all be gone  
But I need some time

All the while  
the world looks on  
makes sure you're done

But I need some time  
Yes I need some time  
You know I need some time  
Yes I need some time
