

Like A Mountain

Soulsister

No more shivers inside
Keepin' you wide awake all night
All your desolate dreams
Seem to fade into memories

I'm all set on teasin' you, pleasin' you
Tonight

My love is like a mountain
Risin' in the sky
It is high enough, strong enough
My love is like a fountain
Never runnin' dry
It is wide enough, bright enough

Don't say you're doin' all right
I know you won't make it through the night
One day you're gonna find
Love is more than just a state of mind

I'm all set on holdin' you, holdin' you
Tonight

My love is like a mountain
Risin' in the sky
It is high enough, strong enough
My love is like a fountain
Never runnin' dry
It is wide enough, bright enough

Hold on
Soon I will be with you
Tryin' and takin' you higher
So long
I have been cravin' you
On and on and on and we'll be stirrin' up the fire
