

# Uptown Girls

Soulsister

I've been round and round the world  
lookin' for a taste  
Checkin' out every kind of life  
in every kind of space

From Paris cross to Dusseldorf  
New York to Hollywood  
like a cop undercover  
I came to discover  
what makes a boy feel good

Uptown Girls

No I've never been one to fantasize  
although I like to dream  
And sometimes there's no comprise  
for all that falls between

So lookin' real good on real good day  
I took a stroll uptown  
to get a close look  
at what had me hooked  
and guess what I had found

Big lips

Big eyes  
Lots of style  
makes my heart beat faster  
than a machine gun blastin'  
Look at all them girls
