

# Wishing

Soulsister

I'm wishing  
Every other day would be the same  
As this one now  
Mmm oh oh !  
Praying  
Tommorow you still may know my name  
Say it loud  
Say it loud

Wishing I was the only one beside you  
Wishing I was  
Wishing I was  
Wishing I was the only one to guide you  
Wishing I was  
Wishing I was

It's funny  
It took me so long to get it right  
Even so, now we know  
Lovers  
Don't feel lost in the dead of night  
Oh no, no, no  
no, no, no !

Wishing I was the only one beside you  
Wishing I was  
Wishing I was  
Wishing I was the only one to guide you  
Wishing I was  
Wishing I was

Don't deny your love  
The way that I did  
The way that I did  
Don't defy your luck  
The way that I once did

Wishing I was  
Wishing I was  
The only one, only one  
Wishing I was  
Wishing I was  
The only one, only one

Wishing I was the only one beside you  
Wishing I was  
Wishing I was  
Wishing I was the only one to guide you  
Wishing I was  
Wishing I was
