You Get To Me

Soulsister

Love has no longer the feelin' that lifted me up in the sky
The kisses I did keep on on stealin' seemed to be hollow and dry

Took an awful long time to clear my mind but finally night turned into day this is more than I have ever hoped to find Girl I miss you when you just look away

Oooh ooh oh you get to me
Ooh ooh ogh say you'll always be around

Your kisses left burns on my body Your wishes were blastin' my brain You know I can't try any harder But I'm willing to take it again

It's a delicate story of love and pain A battle we both tried to win Resistance soon proved to be in pain Now I'm glad I was the one to give in

Oooh ooh oph say you'll always be around

Took an awful long time to clear my mind but finally night turned into day this is more than I have ever hoped to find Girl I miss you when you just look away

Oooh ooh oh you get to me
