

The Impaler

SoulsPELL

(Arlim)
Twisted Mind

(Tobit)
Redeemer, take me away
You know my fears, my forsaken destiny
Free-will, fire calls
I pledge you my mind
The oath of infidels

(Hobb)
What they hide in their words
A traced horizon that won't be fair
Stand up and face all the evil
Make the stones on your way be your guide

(Tobit)
On and on I'm Searching for the unknown
The unnamed old times of my mind
That I lived ages ago
Like a crown outside a kingdom
Democracy without freedom
My life is a secret to me

Great walls, there's no way out
My own blood betrayed me
At Arges River I was lost, I died
That's why I can't see myself on this mirror

(Hobb)
Think twice
Don't treat the suicide like your buried pain
From inside
You feel blamed souls won't reign

(Tobit)
On and on I'm searching for the unknown...
