## **Great Continental Suicide Note**

Soulwax

Try me, write it down On whatever is left to stay But it means nothin' to me Try and put it down to Someone else's mistake But it's over, it's over Get high, any higher And if I get this lonely I write it down to this moment Last word for solitude Long time overdue But it means nothin' to me Cause you sit back while every surf Hits the rocks Better than sure Don't give it away Get high, any higher And if I get this lonely I write it down to this moment Cause : you want it you want it you got it you got it if you ta ste it if you need it if you waste it go chase it
