

## Temporarily Yours

Soulwax

Maybe I'm wrong  
But I could've sworn  
I saw your eye twitch.  
Didn't object,  
What did you expect?  
Now I have to tell you:  
Don't come back to tempt me.  
I'm happy in my misery.  
You asked what I did,  
I did what you asked,  
But I couldn't get it  
Right from the start  
You went for my heart,  
Now I have to ask you  
Don't come back to tempt me.  
I'm happy in my misery.  
It was your idea in the first place  
And I know it takes two but on certain days  
I try not to think of how it would be if....  
I don't pretend  
To know where it ends  
Wish I could care less.  
One time I cried more  
In 1994  
But that doesn't count I guess.
