

## Back to Life

### Sound Storm

In that stormy night. i'll fulfill my dreams  
Time now has come, you know what i mean  
My vision is real  
My theory was not just illusion

It's raining outside. i'm ready to try  
Thunders and lightning now lashing the sky  
Power! it's full! now, come back to life!

Life goes on still in you  
You'll see the light, my son  
Revival of your death  
And you can see the sun

A burst of light's flashing my eyes  
Power of lightning lits up the night  
Lying dead yet  
Not even a sign of life

The storm rages again  
Another attempt

I'm ready to try again and again  
Power! it's full! now come back to life

I'm just a fool  
What is your destiny?

My son  
A new life is born  
Back from the abyss of hell  
To view again the daylight  
A new life is born  
Back from the abyss of hell  
But there's something strange  
In his eyes
