

Back to Life

Sound Storm

In that stormy night. i'll fulfill my dreams
Time now has come, you know what i mean
My vision is real
My theory was not just illusion

It's raining outside. i'm ready to try
Thunders and lightning now lashing the sky
Power! it's full! now, come hack to life!

Life goes on still in you
You'll see the light, my son
Revival of your death
And you can see the sun

A burst of light's flashing my eyes
Power of lightning lits up the night
Lying dead yet
Not even a sign of life

The storm rages again
Another attempt

I'm ready to try again and again
Power! it's full! now come hack to life

I'm just a fool
What is your destiny?

My son
A new life is born
Back from the abyss of hell
To view again the daylight
A new life is born
Back from the abyss of hell
But there's something strange
In his eyes
