I think it's turning back around And I think I like it
I think it's turning back around Though I don't know why it is
I think it's turning back on me
I'm down on the upside
I think it's turning back on me
Now I'm the good ride

And nothing's gonna put me out It's backing down and under I'm down on the upside now It's turning back around Turning back around

I think it's coming on the wind Just like you said it I think it's coming on the wind And I'm gonna let it

I think it's turning back on me Everything is easy I think it's turning back on me Everything's real to me
