

## Keep Close

South

Keep close but keep quiet  
As if an angel graced us all up in our hands  
Redefine close to tears  
It looked painful like I secretly feared

What I mean to say is you talked me round  
Don't look down on the luck you found

I mean well I steal  
I see violence in the corner of your eye  
Make sense of what you feel  
There's a danger in every story and every smile

What I mean to say is you talked me round  
Don't look down on the luck you found  
What I mean to say is you tore me down  
But don't look down on the luck you found
