

Sight Of Me

South

See all the people want in my eyes
They all seem to want to share my light

I'm gonna be there when your soul comes down
I see you running on your own intentions

Have you seen the sight of me
I won't be there when you run out of changes

Look into your life what's on tonight
Dressed up in fame you're gonna see the sights

I'm gonna be there when you're soul comes down
I see you running on your own intentions
