

February

Southpaw

Tuesday wasn't a great day
We acted the same way
As we are used to
You were bored
And i was frustrated
In fact i just waited
For a chance to get close to you

'Cause every second without you
I feel so lost and lonely
Right now they are talking about you
Nobody knows - Where did you go?

This time
The choice is mine
This time
I won't stay behind

Come back and enter my shack
Listen to my track
Oh baby please do
I'm sure this might be the occasion
To start a conversation
Between me and you

Cause every second without you
I feel so lost and lonely
And all my songs are about you
Don't you know
How far it can go
