

Get Your Body On The Job

Southside Johnny & The Asbury Jukes

Here's the music
Here's the beat
Now put them both to work in your feet

I know you're happy
Cause dancing never fails
To get you happy and wagging your tail

Work it, work it, grind it down smooth
Dance, dance...put it in the groove
In, out, together with me
Up, down, shamelessly

Get your body...on the job
Get your body...on the job
Work it good, work with me
Get your body...on the j.o.b.

Music's the fuel
Your body's the tool
To get a fire building under you

The D.J.'s the boss
He's got the hot sauce
His turntables are talking to you

Work it, work it, grind it down smooth
Dance, dance...put it in the groove
In, out, together with me
Up, down, shamelessly
