

# I Can't Live Without Love

Southside Johnny & The Asbury Jukes

Battle is over  
Peace has settled in  
I'll never hear  
Your voice again  
Hind sight is 20-20  
Love's a 50-50 thing  
Now I see your love was everything

You turned out the light  
When you walked out the door  
Now I've got freedom  
I never wanted before  
This world is a prison  
Locked outside your heart  
All that's left - is time and emptiness

I - I can't live, I can't live without your love  
I - I can't live, I can't live without your love

I don't feel strong now  
I feel insecure  
I try standing up  
But I can't get off the floor  
Sometimes words can't fit  
Things you want to say  
Seemed so hard, to beg you to stay  
Time hasn't healed  
My heart like it should  
I try to drink away the pain  
Does no good  
I bury myself in work  
But it's just no use  
Nothing's left but time and emptiness

I - I can't live, I can't live without your love  
I - I can't live, I can't live without love

I can't live, I can't live without love  
Your love  
I can't live, I can't live without your love  
Your love  
I can't live, I can't live without love  
Your love  
I can't live, I can't live without your love  
Sweet love  
I can't live, I can't live without love  
Without love  
I just can't live without love  
Your love  
I just can't live without love  
Can't live baby, sweet love
