

Keep Our Love Simple

Southside Johnny & The Asbury Jukes

Don't worry 'bout the future
Don't get stuck in the past
Try not to get far ahead of yourself
So concerned love won't last

There's only one thing that matters, I love you
There's only one thing that counts, I love you
Don't get caught in complications
Keep our love simple
Keep our love simple

Don't get confused by problems
Things you don't understand
When the world gets too close to you
Just take hold of my hand

There's only one thing that matters, I love you
There's only one thing that counts, I love you
Don't get caught in complications
Keep our love simple
Keep our love simple

Don't want to feel strangled
Don't want to feel tangled

Keep our love simple
Keep our love simple
Keep our love simple
Keep our love simple
Keep our love simple
Keep our love simple
Keep our love simple
Keep our love simple
