

## No Secret

### Southside Johnny & The Asbury Jukes

There is no secret in this heart of mine  
There is no secret to what you'll find  
In this heart of mine  
In this heart of mine

He sat down and took her hand and whispered  
Baby, it's alright  
You may never be no saint  
But you're an angel in my sight  
Now I'm just a simple man  
I ain't no good with words  
I've had a little trouble in my life  
But I guess you've heard

But there is no secret in this heart of mine  
There is no secret now to what you'll find  
In this heart of mine  
In this heart of mine

They sat on the front porch and listened to the traffic  
And watched the evening sun go down  
And they thought about it, talked about it  
Thought about it, talked about it  
Trying to find away out of this town  
Ah, but they never did  
No, they live there still  
It's not so easy to break away, break away  
No matter what you will

There is no secret in this heart of mine  
There is no secret now to what you'll find  
In this heart of mine  
In this heart of mine

He held her in his arms  
Buried his face in her hair  
And tried to read the future in the passing headlights  
But I guess he got it wrong

So, they got married and tried to settle down  
But it all fell apart  
I guess you can't live on dreams, no  
But hey, it's not a bad place to start

There is no secret in this heart of mine  
There is no secret to what you'll find  
In this heart of mine  
In this heart of mine  
In this heart of mine  
In this heart of mine
