

# Restless Heart

Southside Johnny & The Asbury Jukes

She don't really know what she's looking for  
When she goes out at night

But she feels there's a place somewhere  
The lights shine twice as bright

She hopes that tonight things will turn out the way  
That she thinks they should  
But she knows deep down nothing could ever be that good

Whoa whoa whoa she's got a restless heart  
Whoa whoa whoa she's got a restless, she's got a restless  
Oh, she's got a restless heart

She tried all the boys in the neighborhood  
They just let her down  
So she tried all the girls who always used  
To want to hang around

They said - whoa whoa whoa she's got a restless heart  
Whoa whoa whoa she's got a restless, she's got a restless  
Oh, she's got a restless heart

And in the night, she lays and cries herself to sleep  
It isn't right, it isn't right  
How could love  
Be so cheap?

Someday, I know, she's gonna let me in and it'll be alright  
I'm gonna give her what she needs and she's gonna sleep at night  
Until that day I know a lot of pain's gonna come her way  
There's more to life than just living and more to love than play

Whoa whoa whoa she's got a restless heart  
Whoa whoa whoa she's got a restless, she's got a restless  
Oh, she's got a restless heart

She's got a restless heart  
She's got a restless heart  
She's got a restless heart  
She's got a restless heart  
She's got a restless heart  
She's got a restless heart
