

# She Got Me Where She Wants Me

Southside Johnny & The Asbury Jukes

I know all you guys been talkin'  
'Bout how I ain't hangin' out like I used to  
But if you wonder why I ain't been coming around  
Stayin' out late  
It's 'cause I got somethin' at home keeping me straight

I want to tell you a story  
I want to tell you all about my girl  
She's the sweetest little woman in the whole dog one world  
She said that she needs me, I know it's true  
Nobody's ever loved me the way that she do

You know the little girl has got me where she wants me  
Got me where she wants me  
Got me where she wants me  
And I don't mind  
I don't mind

Is it the way that she walks?  
No, but she moves so fine  
Is it the way that she baby talks?  
No, but you know that drives me out of my mind  
She's tight dresses and lipstick - my style  
Pretty little angel was born to make me smile

The little girl has got me where she wants me  
Got me where she wants me  
Got me where she wants me  
And I don't mind

Early one morning I discovered that she opened my eyes  
Hey pretty baby, are you looking for a lover?  
Well, I want to give you the rest of my life  
Listen to me, baby

She'll never turn her back and walk away  
Cause she knows I'm gonna love her each and every day  
I'd even work two jobs and give her my money  
Just because her love is so much sweeter than honey  
Gonna love me right  
She's my shelter and my light

You know the little girl has got me where she wants me  
Got me where she wants me  
Got me where she wants me  
And I don't mind  
Baby, I don't mind

I'm gonna work two jobs  
I don't mind all  
I've to give my baby my love  
I've got to give her my love  
'Cause she got got got me  
She got got got me  
She got me right where she wants me  
And that's where I want to stay
