

Soul's On Fire

Southside Johnny & The Asbury Jukes

The moment I saw you, I wanted you
You made it so easy
Made love feel like it's supposed to

I never took it for granted
I was just away too long
Now I need you so badly
And you're gone

My soul's on fire
My soul's on fire
My soul's on fire
Tonight

The moment I left you
I missed you, baby
The things I used to shake right off
Have been stickin' to me lately

Don't you worry about me girl
I know this pain can't last
But tonight, babe
It hurts so bad

My soul's on fire
My soul's on fire
My soul's on fire
Tonight

The moment I spoke to you
You tried to make me see
You needed someone to depend on
You knew that could never be me

I hope he treats you better than I did
I hope he can give you all the love he has
But tonight, baby
It hurts so bad
