

Tell Me (that Our Love's Still Strong)

Southside Johnny & The Asbury Jukes

Every day I wake up but I can't look in my mirror
I don't wanna see my face
I'm so afraid that somehow in the night
Sweet baby, I have been replaced
I don't wanna look
I don't wanna see
Somebody lying next to you
Somebody that's not me
I can't face it, can't face the fear
Don't tell me any bad news
Tell me what I want to hear

Tell me that our love's still strong
Tell me if we're going wrong
Tell me that our love's still strong
I could never last too long without you

So I get up, I get dressed, pour a cup of coffee
Face another working day
At my desk all I do is worry
Will our love fade away?
I can't think
I can hardly breathe
I'm paralyzed by the notion
That you'd ever want to leave
So I reach, reach for the telephone
I got to hear your voice saying, baby, come on home

Tell me that our love's still strong
Tell me if we're going wrong
Tell me that our love's still strong
I could never last too long without you

I never knew love could be so obsessive
But, baby, that's the way it is with me
I never thought I'd become so possessive
But I just keep on holding on
I just keep on holding on

Tell me that our love's still strong
Tell me if we're going wrong
Tell me that our love's still strong
I could never last too long without you
