

Anti-Psychiatry

Space Eater

Doctors claim insanity, damage of the brain
Mind pollution high degree
Rejected by society, labeled as insane

Locked in a room, tossed away the key
Find salvation in this new science
Anti-psychiatry

We don't give a fuck about their stupid ways
And we don't give a fuck about the fact that they also say they
don't give a fuck

No such thing as mental illness, madmen are set free
Will this prove to be an error?
Streets are filled with death and terror, see humanity

No disorder, gaze upon reality
Are we all the same?
Anti-psychiatry

We don't give a fuck about their stupid ways
And we don't give a fuck about the fact that they also say they
don't give a fuck

Anti-Psychiatry

Learn to deal with different humans, some kill, some fuck your
kids
Who gives a fuck, it's all the same
It could be you, or me
