

## Deceitful Eyes

Space Eater

The all-consuming love for you  
Brought brightness to my night  
The moments for eternity  
To remember all my life

Still I'm searching for that glow  
But you simply went away  
The mists fell down and I was lost  
My life had gone astray

Searched for love found only lies  
Will I ever see the truth in your  
Deceitful eyes 4x

Dealing with my shattered heart  
Is the hardest task of all  
I'm gazing at the empty walls  
And waiting for your call

Gone are days of happiness  
But I have found new sense  
Still I'm yearning for that time  
When all was so intense

Searched for love found only lies  
Will I ever see the truth in your  
Deceitful eyes 8x
