

20 Million Miles From Earth

Space

No surprises
I am rambling
Searching for companionship

Paranoia is overwhelming
Searching for companionship

20 million miles from Earth
Up above the Universe
And I know there's nothing I can do
Cos I'm 20 million miles away from you
20 million miles above the blue

No disguises
I am weightless
Searching for companionship

I am spinning
Heading nowhere
Searching for companionship

20 million miles from Earth
Up above the Universe
And I know there's nothing I can do
Cos I'm 20 million miles away from you
20 million miles above the blue

Feel a little sorrow for one broken man
Bring me back to Earth and let me breathe again

20 million miles from Earth
Up above the Universe
And I know there's nothing I can do
Cos I'm 20 million miles away from you
20 million miles above the blue
20 million miles away from you
20 million miles above the blue
And I know there's nothing I can do
