

## Avenging Angels

Space

Calling all avenging angels  
Vengeance you know it tastes so good  
Vengeance is cold as ice  
When it has you in its sights (2x)

Calling all avenging angels  
Angels  
Kick-ass angels

You could give a call to Scotland Yard  
Or send for help from the FBI  
But they won't stop a bomb going off  
With only seconds on the clock

Angel oh angel  
Here to brighten up my darkest day  
Take me in your arms  
Protect me from my enemies (enemies)  
Oh deadly angel  
Oh angel  
And when they've got on my knees  
When they're just about to do the deadly deed  
You rescue me (rescue me)  
Rescue me (rescue me)

Angels angels  
Kick-ass angels
