

Mister Psycho

Space

All these people are laughing at him
And although he tries
It's getting to him
And if he sees just one more grin
He won't be held responsible

The city's closing in on him
And everywhere's getting smaller and smaller
And his fingers are getting itchy now
And he won't be held responsible, so

Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
No don't you freak him out

Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away

See his eyes
They're bloodshot red
And bloodshot's what you're going to be
It's not the fact that he's
Following you
It's that he's not trying to hide
And that's bothering you
The city's closing in on him
And every where's getting smaller and smaller
And his fingers are getting itchy now
And he won't be held responsible, so
Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
No don't you freak him out

Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away

Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away

Now he's getting really close
Can you feel his breath upon
Your neck
Now he's listening to your thoughts
Now's the time to be a nervous wreck
The city's closing in on him
And every where's getting smaller and smaller
And his fingers are getting itchy now
And he won't be held responsible, so

Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
Don't freak him out
Don't freak him out
Before he blows his top
Don't freak him out
No don't you freak him out

Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away
Mister Psycho
He'll blow you away
