## **Mister Psycho**

All these people are laughing at him And although he tries It's getting to him And if he sees just one more grin He won't be held responsible

The city's closing in on him And everywhere's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so

Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out No don't you freak him out

Mister Psycho He'll blow you away Mister Psycho He'll blow you away Mister Psycho He'll blow you away Mister Psycho He'll blow you away

See his eyes They're bloodshot red And bloodshot's what you're going to be It's not the fact that he's Following you It's that he's not trying to hide And that's bothering you The city's closing in on him And every where's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out No don't you freak him out Mister Psycho He'll blow you away Mister Psycho He'll blow you away

Space

Mister Psycho He'll blow you away Mister Psycho He'll blow you away

Now he's getting really close Can you feel his breath upon Your neck Now he's listening to your thoughts Now's the time to be a nervous wreck The city's closing in on him And every where's getting smaller and smaller And his fingers are getting itchy now And he won't be held responsible, so

Don't freak him out Don't freak him out Don't freak him out Before he blows his top Don't freak him out Don't freak him out Before he blows his top Don't freak him out No don't you freak him out

Mister Psycho He'll blow you away Mister Psycho He'll blow you away Mister Psycho He'll blow you away Mister Psycho He'll blow you away
