We even went on holiday together
Tranquillisers and Aspirins for company
I don't think we'll ever know what love means
To head-fucks like you and me

Video camera in the room
But what's wrong with that

Save our own skins Save our own sins Save our own skins Save our own skins

Cos I am the only witness
In the defence of the death of our Rock and our Roll

You're photographic, pornographic and happy in Hell?

Had to be suicide
Pretty suicide
Had to be suicide
Cos our love is too strong to hide
It had to be suicide,
Had to be suicide
Cos our love is too strong to hide

It had to be suicide,
Pretty suicide
Cos it's pretty hard to miss now
It had to be suicide,
Cos our love is to strong to hide

You own my life and I own your therapy money And just because I'm a mad old punk I still don't want you on my shoulder No I don't

Video camera in the room But what's wrong with that When you're photogenic, pornographic And happy in Hell?

Save our own skins Save our own sins Save our own skins Save our own skins

Cos I am the only witness
In the defence of the death of our Rock and our Roll

It had to be suicide, suicide Pretty suicide Cos it's too hard to miss now Cos our love is too strong, Love is too strong, Love is too strong to hide Yeah it had to be suicide Pretty suicide Had to be suicide
Cos it's too hard to miss now
Oh it had to be suicide
Cos our love is too strong to hide

Had to be suicide
Pretty suicide
Had to be suicide
Cos our love is to strong to hide
It had to be suicide,
Had to be suicide
Cos our love is to strong to hide
It had to be suicide
Cos our love is to strong to hide
It had to be suicide,
Pretty suicide
Cos it's pretty hard to miss now
It had to be suicide,
Cos our love is to strong to hide
