

# Almond Kisses

Spacehog

(Antony Langdon)

Additional lead vocals by Michael Stipe

Slow breeze slipping through my fingers  
Cold dreams ejected from my mind  
Wet face pressed against a window  
A neon tear illuminates the sign

Almond kisses, almond kisses  
The best kiss you ever had  
Almond kisses, Almond kisses  
Come back  
Back to me

Boy's breath is humid to the nipple  
As Conscience: she topples to the floor  
Ice, cold, tingles in the morning  
As Passion: she sparks the fire for more

Almond kisses, almond kisses  
The best kiss you ever had  
Almond kisses, almond kisses  
Come back to me

So be so strong  
You can't go wrong, can't go wrong
