

Please excuse me  
I meant no harm in being born  
As world falls open wide  
Like a wounded solider falls

Breaks backs in silence  
Don't fall around me this time  
Don't fall around me this time  
My lost awakening

I've found the same as life before  
When after another lonely wounded solider falls  
Like light fantastic  
That falls upon my shoulder

Fall  
Don't fall upon my shoulder

She gave me a call  
So I gave her a smile  
When I asked her for love  
And what I should dial  
She said 'Zero, zero, zero, zero, zero'

Please excuse me  
I meant no harm in being born  
As world falls open wide  
Like a wounded solider falls  
Breaks backs in silence  
Don't fall around me this time  
Don't fall around me this time

I gave her a car  
So she gave me a smile  
When I asked her for love  
And what I should drive  
She said 'Zero, zero, zero, zero, zero'
