

# Take Me To The Other Side

Spacemen 3

I have a passion, sweet Lord  
And it just won't go away  
I have it each and every day Lord  
Sure as the sun comes up each day

Come on take me for a ride  
Take me to the other side  
Come on and take me for a ride

Come on baby take my hand  
And we'll walk across the sand  
We'll go to places we ain't been  
See all the things that we ain't seen

Come on take me for a ride  
Take me to the other side  
Come on take me for a ride  
Come on and take me for a ride  
Come on take me for a ride

I have a passion, sweet Lord  
And it just won't go away  
I have it each and every day Lord  
Sure as the sun comes up each day

Come on take me for a ride  
Take me to the other side  
Come on and take me for a ride  
Come on take me for a ride  
Come on take me for a ride  
Take me to the other side  
Come on, come on, come on now babe  
Take me to the other side  
Come on and take me for a ride  
Come on take me for a ride
